Class/Seminar Teacher Evaluation

This survey requests your feedback on two separate aspects of your learning experience, split into three sections. The first section asks for your views on your teacher's class/seminar teaching. The second section asks for your views on the course as a whole *at this point in time*. Finally, the third section asks for some information about you, to aid analysis. Your views are valuable to your teacher and to the School. The results will be used to identify good practice and will also be used to help improve the teaching and learning experience for you and your peers.

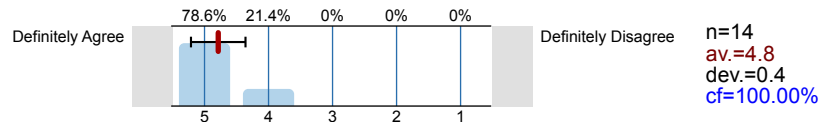

The School reports internal survey results as the percentage of respondents who 'mostly agree' or 'definitely agree' with each statement, in comparison to the percentage of respondents who either 'mostly disagree' or 'definitely disagree' or 'neither agree nor disagree'. The percentage of respondents who 'mostly agree' or 'definitely agree' is the '% Agree' result. For example, the % Agree score means that X % of students on Y course mostly or definitely agree with the statement 'I have received helpful comments on my work'.

1.6 Overall, I am satisfied with the class/seminar teaching by this teacher on this course.

1.7 Please comment below on aspects of this teacher's class/seminar teaching you think were particularly helpful.

- Dr Blackwell has a great ability to explain complex ideas in a simple manner.
- Essay marking exercises were particularly good. It was also good that we had a clear idea which materials from reading lists are important. It was also helpful to go through the legislation in a detailed manner.
- He's really lovely and is always happy to explain and break down concepts more than once if we struggle! It is not an easy subject, so he is really good at communicating it to us! He also always finds the time to mark extra work and give detailed feedback, and you definitely feel supported and motivated.
- Listened to feedback from class and adapted
- None
- Pulls out the key subtleties in legislation and broad ideas very easily
- Summary
- Working through problem questions in class, receiving sample answers, and the lecture slides were helpful.

1.7b Please comment below on aspects of this teacher's class/seminar teaching you think could be improved.

- Delivery of course content could have been made more interesting, because lessons were rather poorly and loosely structured.
- I think the class needs to be a bit more structured
- It felt that the classes lacked structure, so in some cases it was difficult to tell what are the key issues that we should be focusing on.
- Lack of lectures makes understanding more difficult
- More could have been done to involve all members of the class in discussion. Especially in LT, I found it difficult to follow the topic throughout the class as there was a tendency to start with a detailed analysis of legislation without having a sort of overview of the topic and its application. Signposting and the structure of seminars could be improved.
- More structure to classes - list of questions to go through each week relevant to the readings would be helpful
Lectures and classes rather than just seminar
- More use of slides and clearer notes for later topics
- NA
- The teacher often seemed to be unprepared and his presentations were therefore chaotic with the structure of the topic being really difficult to follow. This made understanding the subject difficult, which is problematic given the technical nature and complexities of tax law.
- would be nice if students got a statute book with all the relevant stuff
it's not clear what topics are PQ topics and what topics are essay questions - important because both require a different kind of study

- Dr Blackwell did everything to help us apply the knowledge to the real world and hosted so many talks from different professionals in the field. I finally felt like I was learning more than just theory at LSE.
- Good detail in the seminars.
- None
- Relevant to present matters
- The content is fantastic - very useful from a commercial perspective and interesting as it was very up to date.
- The content of this course is very stimulating and the problems we discussed are very contemporary. Cases and legislation were very interesting. The enthusiasm of both teachers in the topics is another very positive aspect of this course.
- content

2.15b Please comment below on aspects of this course you think could be improved.

- Because the reading list contains materials sometimes longer than 100-pages, more effort should be spent on clarifying which parts of these materials are the most important and should be given priority. Perhaps, a list of terms and questions regarding a particular topic could do. Sometimes, these were distributed before our classes but many times, these were unavailable.
- Lectures and classes rather than just seminar teaching
- More focus on particular topics, rather than giving us hundreds of pages to read every week without clarifying in the seminars the core issues and tensions whose identification could help us score high marks in the exam.
- NA
- The reading list was quite confusing, with both the moodle and main list as well as no hierarchy of core and further reading for the first term.
- This comment has been redacted from the published version, as it comments on a teacher other than Dr Michael Blackwell.
