BIO

Andrés Rodríguez-Pose is the Princesa de Asturias Chair and a Professor of Economic Geography at the London School of Economics (LSE). He is the Director of the Cañada Blanch Centre at LSE and previously served as Head of the Department of Geography and Environment.

Between 2022 and 2024, he chaired the European Union's (EU) High-level Group on the Future of Cohesion Policy, which is responsible for shaping the EU's Cohesion Policy for the post-2027 period. With a budget of €392 billion for 2021–2027, the EU's Cohesion Policy is the largest development policy in the world.

Professor Rodríguez-Pose has held prominent leadership roles in academic associations. He served as President of the Regional Science Association International (RSAI) from 2015 to 2017, following his term as Vice-President in 2014. He was also Vice-President (2012–2013) and Secretary (2001–2005) of the European Regional Science Association.

In addition to his position at LSE, he is a Visiting Professor of Innovation at the Centre for Innovation Research at the University of Stavanger, Norway. He has also been a visiting professor at several leading higher education institutions, including the College of Europe (Belgium), the University of Cambridge (UK), the University of Hannover (Germany), the University of Split (Croatia), and the Autonomous University of Madrid (Spain).

His research focuses on regional growth and inequality, trade, innovation, fiscal and political decentralisation, institutions, discontent and populism, migration, and development and industrial policies. This work is highly influential and widely cited within academic circles. In the 2026 Stanford/Elsevier list of the top 2% of the world's most-cited scientists (including more than 200,000 researchers across all scientific disciplines), he ranked among the top 700 researchers globally. In that same ranking, he has also been recognised **as the most-cited scholar in the field of urban and regional planning worldwide in five of the past six years**. Furthermore, he has featured on Clarivate's Web of Science Highly Cited Researchers lists in the last seven, which highlight the top 1% of cited researchers across all scientific fields.

Beyond academia, Professor Rodríguez-Pose's research has had significant policy impact. He has regularly acted as an advisor to a wide range of international organisations, including several Directorates of the European Commission, the World Bank, the Cities Alliance, the OECD, the International Labour Organization, UNCTAD, the United Nations Development Programme, the Food and Agriculture Organization, the European Investment Bank, the European Bank for Reconstruction and Development, the Inter-American Development Bank, the Development Bank of Latin America, the Asian Development Bank, and the African Union, among others. In particular, he has been member of top European Committees advising several European Commissioners on innovation, productivity, economic growth, employment, and development.

His contributions to the research have been recognised with numerous honours. In 2025 he was awarded the Sir Peter Hall Award for Lifetime Contribution, the top accolade by the Regional Studies Association. He also holds the 2018 ERSA Prize in Regional Science, one of the most prestigious accolades in the discipline. He has also received a European Research Council (ERC) Advanced Grant and the Royal Society-Wolfson Research Merit Award. Previous distinctions include a Leverhulme Trust Major Research Fellowship, a Philip Leverhulme Prize, and the Royal Geographical Society's Gill Memorial Award, the latter two for his contributions to the understanding of regional disparities and development. He has also been awarded honorary doctorates by Utrecht University (Netherlands) and Jönköping University (Sweden).

Professor Rodríguez-Pose has authored several influential books, including *The Dynamics of Regional Growth in Europe* (Oxford University Press, 1998), *The European Union: Economy, Society, and Polity* (Oxford University Press, 2002), *Local and Regional Development* (Routledge, 2006; 2nd Edition, 2017), *Innovation and Regional Growth in the European Union* (Springer, 2011), *Technology and Industrial Parks in Emerging Countries* (Springer, 2014), and *La vendetta dei Luoghi che Non Contano* (Donzelli, 2025). Several of these works have been translated into Chinese, Italian, and Spanish. In addition, he has published more than 260 articles in leading international peer-reviewed journals.

He currently serves as an editor of *Economic Geography* and sits on the editorial boards of 54 other scholarly journals, spanning disciplines such as economic geography, human geography, regional science, political science, and management. Between 1999 and 2016, he was an editor of *Environment and Planning C*, acting as joint chief editor from 2008 onwards, and served as editor-in-chief of the *Journal of Geographical Systems* from 2019 to 2021.

OTHER IMPACT

- Andrés Rodríguez-Pose has been ranked **first worldwide** in the 2026, 2025, 2024, 2023, and 2021 Stanford/Elsevier lists of the 2% most cited scientists (which identifies more than 200,000 researchers across all areas of science by scholarly citations) in the field of **urban and regional planning**.

- He ranks 441 in the world in the 2026 the Stanford/Elsevier ranking of researchers across all scientific disciplines, measured by his scientific citations.

- He was named in 2026, for the seventh consecutive year, among **Clarivate's Highly Cited Researchers**, a distinction awarded to less than 7,000 scholars across all disciplines who have authored multiple highly-cited papers ranking in the top 1% by citations for their field and year in the Web of Science.

- Notably, he is one of only 260 researchers worldwide recognised in the **Social Sciences category**.

- As of October 2026, he had thirteen **highly cited** (top 1% in each of the 22 ESI subject areas) in Clarivate's Essential Science Indicators (ESI). Of those highly cited papers, four were also **research frontier** articles.

- Despite being a geographer, he is also highly ranked as an economist. According to **RePEc** —the main economists' ranking— in August 2026 he was ranked as the **245th** economist worldwide (**52nd** when only the **last 10 years of publications** are taken into account). He is the top ranked geographer on the list. He was also the **11th** economist in the UK (and **4th** in the country when only the last 10 years are considered).

- In **RePEc** he was also among the top-10 economists in the world in the fields of **Economic Geography** (4th), **Microeconomic European Issues** (6th), **Small Business Management** (8th), and **Urban & Real Estate Economics** (9th).
